Summary

Highly motivated and passionate individual. Hands-on experience with penetration testing on TryHackMe, HackThisSite and several self-hosted vulnerable machines on my home lab.

Career history

Client Support Specialist at Hyundai
October 2025 – Present

Client Support Specialist responsible for delivering exceptional customer service in a motor vehicle environment, handling inquiries, resolving issues, and coordinating support across sales, service, and aftercare to ensure high client satisfaction and loyalty.

Key responsibilities

- Managed high-volume customer inquiries regarding vehicle sales, service bookings, parts availability, warranties, and financing options, delivering timely and accurate resolutions to ensure high customer satisfaction.
- Acted as the primary point of contact between clients and internal teams (sales, service, and management), coordinating appointments, escalating complex issues, and following up to guarantee seamless after-sales support.
- Provided expert product knowledge on vehicle models, features, and maintenance packages while proactively resolving complaints and identifying opportunities to upsell service plans or accessories.

Customer Experience Specialist at Nab
October 2023 – October 2025

Customer Experience Specialist focused on elevating the personal banking journey by addressing client needs, streamlining account and product support, and continuously refining service touchpoints to build lasting trust and engagement.

Key responsibilities

- Resolved complex client inquiries related to accounts, cards, loans, and digital banking platforms, ensuring accurate and

timely solutions that upheld service standards and regulatory compliance.

- Partnered with product, operations, and branch teams to identify friction points in the customer journey and implement process improvements that enhanced overall satisfaction and reduced complaint volumes.
- Proactively monitored client feedback and interaction data to recommend personalised banking solutions, driving deeper engagement and long-term relationship growth.

Assistant Line Leader at HelloFresh

April 2021 – October 2023

Assistant Line Leader supporting the efficient and safe production of meals in a r**eady meals-to-go** facility, overseeing daily line operations, guiding team members, and ensuring quality, hygiene, and production targets are consistently met.

Key responsibilities

- Supported the Line Leader in directing daily production operations, ensuring meal preparation met volume targets, quality standards, and strict food safety and hygiene requirements.
- Supervised and guided production team members on the line, providing real-time coaching, allocating tasks, and maintaining a safe, organised, and efficient working environment.
- Monitored production flow, identified bottlenecks or quality issues, and coordinated with kitchen and packing teams to keep operations running smoothly and on schedule.

Store Manager at Skechers

November 2019 – April 2021

Store Manager responsible for leading a high-performing team at a top-rated shoe retail store, driving sales growth, delivering outstanding customer experiences, and ensuring operational excellence across all store functions.

Key responsibilities

- Led daily store operations and a high-performing sales team to consistently achieve or exceed sales targets, while delivering exceptional customer service that reinforced the store’s top-rated reputation.
- Managed inventory, visual merchandising, and stock control to optimise product availability, maximise sell-through of key footwear lines, and maintain an appealing in-store experience.
- Recruited, trained, and coached team members, setting performance standards and fostering a motivated, customer-focused culture that drove both sales results and positive customer feedback.
